

Urban Fishing Program

Since 1969, MDC has provided close-to-home, St. Louis area fishing opportunities through the Urban Fishing Program (UFP). MDC stocks 19 St. Louis City and County park lakes with channel catfish, between 6 and 13 times, from April through September. Trout are stocked in several lakes from November through February. Since 1969, MDC has stocked over 2.5 million pounds of fish. In addition, nine UFP lakes are managed to provide largemouth bass and sun-fish fishing. MDC has renovated several UFP lakes to improve angler access and fish habitat. All lakes in the UFP are owned by other agencies and MDC helps manage them through the Community Assistance Program.

August A. Busch and Weldon Spring Conservation Areas

The August A. Busch Memorial and Weldon Spring Conservation Areas (15,093 acres) in St. Charles County offer a diversity of fishing opportunities within 40 minutes of the Arch, including: catch-and-release only, winter trout, intensively-managed catfish, trophy (bass, cat-fish, muskie and carp), walk-in ponds, kids-only lakes, along with stream and large river access.

Community Assistance Program

MDC's Community Assistance Program (CAP) has provided millions of dollars to St. Louis area communities to improve access and aquatic habitats in streams and lakes. MDC cash grants and work crews have built disabled-accessible angler and viewing docks and platforms, trails, boat ramps, parking facilities, rest-rooms, aeration systems, and shoreline stabilization projects, as well as deepening 16 lakes. MDC fisheries biologists continue to manage the fish communities in these lakes by improving fish cover, surveying fish communities, setting appropriate regulations, and stocking. Biologist activities in streams include restoring rare and endangered species, surveying fish communities, fish habitat improvement projects, setting appropriate regulations, and stocking.

Go Fish St. Louis!

Fishing is great in the St. Louis area. This guide is your atlas to locating the tremendous close-to-home fishing in and around St. Louis. Inside, you'll find the names and locations of all public fishing areas and stream accesses near St. Louis and information about the many fishing opportunities available. The Missouri Department of Conservation hopes that you'll wet a line in your own back yard and enjoy the wonderful fishing to be found in the St. Louis area.

Missouri Department of Conservation
2360 Hwy. D
St. Charles, MO 63304

REGULATIONS

Since fishing and boating regulations vary between lakes, check the posted regulation signs before fishing. Statewide regulations apply for all St. Louis streams, except for the Red Ribbon Trout and Stream Black Bass and Rock Bass Special Management Areas in the Meramec River Watershed. Please review the Department of Conservation's “A Summary of Missouri Fishing Regulations” booklet, which is available wherever fishing permits are sold.

¹ Intensively managed catfish lakes.
* Catch and release, artificial lures only fishing, November 1 - January 31
12-15” protected slot length limit; all bass in the 12-15” range must be released.

Fishing Permits

- All anglers under 16 years of age and Missouri residents 65 years of age and older may fish without a permit; **all others are required to possess a valid Missouri fishing permit**, unless specifically exempted by the Wildlife Code of Missouri.
- All anglers, regardless of age, are required to possess a valid Missouri trout permit when possessing and transporting trout. A Missouri trout permit is not required for catch-and-release fishing.
- Reciprocal fishing privileges have been extended to licensed Missouri anglers fishing flowing waters, shared oxbows, adjacent backwaters of the Mississippi River, and may fish from the bank or attached to the bank of Missouri or Illinois. Anglers must abide by the most restrictive of the two states’ regulations when fishing the other states’ waters.
